SUMMARY

Senior Full Stack Engineer with 10+ years of experience architecting high-availability web applications and distributed systems across financial services, e-commerce, and contact center domains. Expertise in React, JavaScript, TypeScript, Node.js, Python, micro-frontend architecture, and AWS with a strong track record of building 0-to-1 products, integrating AI-powered capabilities, and optimizing application performance. Proven technical leadership experience driving architecture decisions, leading engineering teams, and delivering scalable solutions for high-volume business operations.

SKILLS

Languages: JavaScript, TypeScript, Java, Python

Frontend: React, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Material UI, AG Grid, D3.js,

React Hook Form, React Query, Webpack, Vite

Backend & APIs: Node.js, Express, Flask, REST APIs, GraphQL, JWT, OAuth2

Databases: PostgreSQL, MongoDB, SQL

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, GitHub Actions

Frontend Architecture: Micro Frontends, Module Federation, Component Architecture, State Management, SSR, SSG

Testing: Jest, React Testing Library, Cypress, JUnit

EXPERIENCE

Wells Fargo | Senior Software Engineer (Contract) | Jun 2026 - Present | Dallas, Texas

- Architected and integrated AI-powered Smart Assist into a high-volume contact center application using React, API Gateway, and Node.js, enabling contextual knowledge summaries and reducing customer resolution time by 25% for 4,000+ agents.
- Designed and implemented Module Federation-based micro-frontends architecture across 5 micro-frontends supporting 6 lines of business, enabling independent deployment and release.
- Led a 3-developer team, driving frontend architecture, integration patterns, and production feature delivery.

Goldman Sachs | Senior Software Engineer (Contract) | Jul 2025 - Mar 2026 | Dallas, Texas

- Optimized frontend performance through code splitting, state management, API caching, and rendering optimizations, reducing page load time by ~10% and interaction latency by ~20%.
- Replaced traditional tables with AG Grid and migrated forms to React Hook Form.
- Developed a cross-border transaction workflow using React, Next.js, and TypeScript supporting 5,000+ transactions daily.
- Parallelized CI/CD test suites, reducing pipeline execution time by ~33%.

Wells Fargo | Senior Software Engineer (Contract) | Jun 2023 - Jun 2025 | Dallas, Texas

- Architected the foundation of a next-generation contact center platform and initial React/TypeScript POC.
- Designed Five9 integration architecture using React, Node.js, REST, and AWS for real-time agent workflows.
- Integrated customer data services for context-aware department-specific workflows.
- Established Module Federation micro-frontends and distributed application patterns.

Goldman Sachs | Consultant (Contract) | Dec 2021 - Feb 2023 | Dallas, Texas

- Delivered financial workflows for loan prepayment, credit rating, origination, and loan management.
- Designed micro frontend architecture and integrated React applications with Flask backend services.
- Built full-stack capabilities using React, TypeScript, Python, Flask, REST, Docker, AWS, and SQL.
- Optimized APIs, SQL queries, indexing, caching, and automated test coverage.

Aperia Solutions | IS Lead Developer | Sep 2021 - Dec 2021 | Dallas, Texas

- Developed responsive React/TypeScript interfaces and led a distributed frontend engineering team.

Infosys | Technology Analyst | Feb 2020 - Sep 2021 | Tampa, Florida

- Developed React/TypeScript dashboards for Verizon Power, Space & Cooling using REST, Redux, D3.js, Java, Spring Boot, and SQL.

The University of Alabama | Research Assistant | Aug 2018 - Dec 2019 | Huntsville, Alabama

- Developed academic research web applications including a gamified atomic-configuration visualization platform and social-media vetting application.

IBM | Associate Technical Operations | Jul 2015 - Dec 2017 | Hyderabad, India

- Developed responsive web applications for Sony e-commerce using JavaScript, jQuery, HTML, CSS, Bootstrap, JSON, and AJAX.

EDUCATION**The University of Alabama | Master of Science, Computer Science | Jan 2018 - Dec 2019****Anna University | Bachelor of Engineering, Computer Science | Aug 2011 - May 2015****PUBLICATION**

GoCrystal: A Gamified Visual Analytics Tool for Analysis and Visualization of Atomic Configurations and Thermodynamic Energy Models, Information Visualization (SAGE), 2020.
